# Be READY for realistic VR medical clinic simulation

## XR Clinic – Virtual Reality Medical Training Solution

XR Clinic is an advanced, affordable, and revolutionary virtual reality medical training solution.

Learn and develop medical diagnostic skills with high resolution graphics that are engaging and truly immersive.

Virtual patients differ in age and gender and answer different medical questions which gives the user the chance to analyze and make conclusions about possible diagnosis.

Learners can develop critical skills to effectively diagnose illnesses using a wide variety of medical instruments, medicines, and laboratory tests in a safe, controlled environment with session monitoring in real time.

## Advanced VR medical simulation to fit any budget.

Key Features
